

WEDFLIX — Product Requirements Document (PRD)

Tagline

“Your Story. Beautifully Streamed. Forever.”

1. PRODUCT OVERVIEW

Product Name

WEDFLIX

Product Type

OTT-style cinematic wedding memory streaming platform.

Core Idea

WEDFLIX transforms wedding films and life memories into a premium Netflix-like streaming experience where couples and families can relive their journey forever.

Instead of delivering memories through:

- Google Drive
- gallery links
- pen drives
- hard disks

WEDFLIX creates:

- a cinematic streaming platform
 - season-based storytelling
 - personalized memory vaults
 - OTT-style navigation
 - emotional life archiving
-

2. PRODUCT VISION

To become the world’s first cinematic life-memory streaming platform.

The platform should not feel like:

- a website
- a gallery
- cloud storage

The platform should feel like:

- Netflix for wedding memories
 - a premium OTT platform
 - a digital legacy archive
 - a private family streaming service
-

3. CORE CONCEPT

Every couple receives:

- a dedicated cinematic streaming page
- personalized OTT-style interface
- life-event storytelling seasons
- secure family access
- lifetime memory preservation

The platform evolves with their life.

4. SEASON-BASED STORYTELLING CONCEPT

Season 1 — The Wedding Story

Includes:

- proposal film
- pre wedding film
- haldi
- mehendi

- sangeet
- wedding ceremony
- reception
- wedding teaser
- cinematic highlights
- reels & shorts
- candid moments

Season 2 — Anniversary Story

Includes:

- anniversary celebration films
- cinematic recap reels
- AI anniversary edits
- “On this day” resurfacing memories
- personalized montage videos
- family celebration moments

Season 3 — The Family Story

Includes:

- baby shower
- naming ceremony
- first birthday
- family vacations
- emotional milestones
- future celebrations

Long-term vision:

A complete digital cinematic archive of a family’s life journey.

5. TARGET AUDIENCE

Primary Audience

- premium wedding couples
- luxury wedding clients
- destination wedding clients

Secondary Audience

- wedding filmmakers
- photography studios
- wedding production houses
- luxury wedding planners

Future Audience

- families
 - event creators
 - premium life documentation services
-

6. PLATFORM EXPERIENCE

Desired Experience

The platform should feel:

- cinematic
- immersive
- emotional
- premium
- smooth
- app-like
- modern

The experience should resemble:

- Netflix
 - Apple TV
 - Spotify
 - Disney+ Hotstar
 - Vimeo OTT
-

7. USER FLOW DOCUMENT

FLOW 1 — ENTRY EXPERIENCE

Step 1 — Landing Access

User opens:

www.thewedflix.com

OR

custom wedding URL.

Example:

- aaravandananya.wedflix.com
 - theweddingofrahul.com
-

Step 2 — Profile Selection Screen

Screen Title:

“Who’s Watching?”

Profiles:

- Bride
- Groom
- Family
- Friends

Purpose:

- personalized experience

- customized recommendations
- privacy segmentation
- emotional immersion

Visual Style:

- Netflix-inspired profile selection
- dark background
- red accent hover
- smooth scaling animation

Transition:

After selecting profile:

Netflix-style zoom transition animation.

FLOW 2 — OTT INTRO EXPERIENCE

Step 3 — Cinematic Intro Animation

Features:

- cinematic WEDFLIX logo reveal
- Netflix-style intro sound
- red glow animation
- smooth fade transition

Duration:

2–3 seconds.

Purpose:

Create premium OTT emotional experience.

FLOW 3 — HOME SCREEN EXPERIENCE

Step 4 — Cinematic Homepage

Hero Section

Background:

Auto-playing wedding teaser film.

Features:

- muted autoplay
- cinematic blur overlay
- smooth fade transitions
- responsive video playback

Hero Text:

- Couple names
- wedding title
- emotional subtitle

Example:

“#1 Love In Every Frame”

CTA Buttons:

- Play
- More Info
- Timeline

Metadata:

- Romance
- Family
- Celebration

Visual Experience:

Exactly like Netflix hero banner.

FLOW 4 — CONTENT BROWSING

Step 5 — Horizontal Content Rows

Sections:

- Seasons
- Our Films
- Little Moments
- Wedding Highlights
- Couple Reels
- Family Memories
- Emotional Moments

Card Style:

- cinematic thumbnails
- hover zoom animation
- autoplay preview on hover
- soft shadow glow

Content Types:

- full wedding films
- reels
- teaser edits
- emotional moments
- candid videos
- drone films
- photos

FLOW 5 — SEASONS EXPERIENCE

Step 6 — Seasons Layout

Each season behaves like a Netflix web series.

Example:

Season 1 — Pure Celebration

Episodes:

- Mehendi
- Haldi
- Wedding
- Reception

Season 2 — Lights Come Alive

Episodes:

- Anniversary Celebration
- Family Dinner
- Couple Vacation

Season 3 — Before Forever

Episodes:

- Baby Shower
- Naming Ceremony
- First Birthday

Visual Style:

OTT series browsing layout.

FLOW 6 — VIDEO PLAYBACK EXPERIENCE

Step 7 — Film Playback Screen

Features:

- cinematic player
- ultra HD streaming
- adaptive quality
- ambient dark background
- autoplay next film

- episode navigation
- continue watching

Below Player:

- emotional description
- event date
- people tagged
- related memories

Right Side:

- more moments
- recommended clips
- similar memories

FLOW 7 — REELS EXPERIENCE

Step 8 — Reels & Shorts Interface

Inspired by:

- Instagram Reels
- TikTok
- YouTube Shorts

Features:

- vertical swipe navigation
- autoplay videos
- cinematic transitions
- fullscreen playback
- music indicators
- quick sharing

Categories:

- Couple Moments
 - Bridal Entry
 - Dance Floor
 - Emotional Reactions
 - Cinematic Teasers
-

FLOW 8 — PHOTO EXPERIENCE

Step 9 — Photo Gallery

Modes:

A. Timeline View

- chronological storytelling
- emotional sections
- anniversary resurfacing

B. Cinematic Grid

- masonry gallery
- fullscreen viewing
- swipe navigation
- download originals

Features:

- favorites
 - family sharing
 - slideshow mode
-

FLOW 9 — FAMILY EXPERIENCE

Step 10 — Family Access

Purpose:

Allow different family members to access memories.

Roles:

- Bride
- Groom
- Parents
- Family
- Friends

Permissions:

- view only
- download access
- upload memories
- comment permissions

FLOW 10 — FUTURE MEMORY ENGINE

Step 11 — Anniversary Memory System

Examples:

“2 years ago today ❤️”

Automated Features:

- AI generated anniversary reels
- resurfaced emotional moments
- yearly recap videos
- cinematic memory montages

Purpose:

Keep platform emotionally active forever.

Invite-only viewing.

Family Profiles

Personalized viewing experience.

Anniversary Memory Resurfacing

Automated emotional reminders.

Download Originals

High-resolution access.

Hover Preview Playback

Netflix-style previews.

9. UI / UX GUIDELINES

Visual Language

Theme:

Dark cinematic luxury.

Colors:

- Black
- Netflix Red
- Warm White
- Soft Gold accents

Typography:

- cinematic serif headings
- premium sans-serif body

Animations:

- smooth fade transitions
- hover scaling
- cinematic blur
- autoplay motion
- soft glows

10. TECHNICAL REQUIREMENTS

Frontend

- Next.js
- React
- Tailwind CSS

Video Streaming

- Cloudflare Stream

Storage

- Cloudflare R2

Database

- Supabase / Firebase

Authentication

- OTP login
 - invite links
 - profile-based access
-

11. MOBILE EXPERIENCE

The mobile experience should feel like:

- a native OTT app
- ultra smooth
- cinematic
- responsive

Features:

- autoplay reels
 - swipe navigation
 - fullscreen vertical videos
 - bottom tab navigation
 - instant loading
-

12. BUSINESS MODEL

Revenue Streams

Wedding Vault Packages

- 10 year access
- 20 year access
- lifetime access

Photographer Partnerships

White-label delivery system.

Anniversary Reel Services

AI-generated emotional edits.

Premium Upgrades

- extra storage
 - custom domains
 - family plans
 - cinematic recaps
-

13. FUTURE ROADMAP

Phase 1

- OTT wedding vault
- film streaming
- reels
- gallery
- profiles

Phase 2

- mobile apps
- TV apps
- AI anniversary reels
- memory resurfacing

Phase 3

- AI search
- emotion detection
- voice memories

- family timeline engine
-

14. BRAND POSITIONING

WEDFLIX is not a gallery platform.

WEDFLIX is:

“A cinematic digital legacy platform for life memories.”

Or:

“Netflix for your most important memories.”

15. SUCCESS METRICS

User Metrics

- average watch time
- anniversary revisit rate
- family member engagement
- reels interaction

Business Metrics

- wedding vault sales
 - photographer partnerships
 - recurring anniversary revenue
 - premium upgrades
-

16. FINAL PRODUCT EMOTION

The product should emotionally communicate:

“This is not where memories are stored.

This is where memories live forever.”
